

For Your Information

- **Airtime** is billed from connect to disconnect and is rounded up to the next full minute. Unused minutes do not carry over to the next billing cycle. Calls to "toll-free" numbers do not incur long distance charges, but they are considered airtime. Calls to Nemont customer service and 911 emergency service do not use airtime. Calls to your voice mail incur airtime.
- **Call forwarding** your calls will result in airtime usage and may incur charges.
- **Billing and end user address** must be in the Nemont cellular service area.
- **Roaming** is when you make or receive calls on another cellular company's network. Some calling features may be unavailable while you are roaming. The roam indicator on your phone will alert you when roaming. You will only incur charges while roaming in the US and Canada if you exceed your plan minutes.
- **Roaming minutes** may be billed on a statement following the time the usage was incurred.
- **Services are billed** in advance and therefore you may be billed a prorated portion of your monthly access charge, in addition to one full month of service on your first bill. Your first bill may include an activation fee.
- **Prices of phones and equipment** are determined by individual sales agents and may vary by location.
- **Service is** unavailable when your cellular phone is out of range of one of our sites or a site of another carrier with whom Nemont has a roaming agreement. There are areas with no cellular service. Weather, topography, buildings, your cellular phone, network traffic and other conditions out of our control may cause dropped calls or other problems.
- **Customer Service** can be reached by dialing *611 while using a Nemont cellular tower.
